

Creating Confusiasm: Unleashing emergent agility in organizations

An Agile Session on Liberating Structures

STRING

The string we created for the session is based on the idea, that despite complexity and the confusion that can result, it is still possible to engage in an inclusive and productive agile approach in organizations.

USER GROUPS

The best way to learn how to use Liberating Structures is to experience them. To do so, you can join several meetup groups all over Europe, e.g. in Munich, Berlin, Hamburg, London, Amsterdam & Brussels and many more.

Come and join us on Meetup!

Another place to connect with enthusiastic Users is the Slack channel where people exchange their experiments on Liberating Structures.

Want to be invited to Slack? Please leave us a word!
